Notification: Senate Intel Committee Subpoenas Former National Security Advisor Flynn for Documents Regarding Russia Probe

WASHINGTON – Senator Richard Burr (R-NC), Chairman of the Senate Select Committee on Intelligence, and Senator Mark Warner (D-VA), Vice Chairman of the Senate Select Committee on Intelligence, announced that Senate Select Committee on Intelligence today issued a subpoena for former National Security Advisor Lieutenant General Michael Flynn. The subpoena requests documents relevant to the Committee’s investigation into Russian interference with the 2016 election. The Committee first requested these documents in an April 28, 2017 letter to Lieutenant General Flynn, but he declined, through counsel, to cooperate with the Committee’s request.
